1. If applicant desires priority under 35 U.S.C. 120 based upon a previously filed copending application, specific reference to the earlier filed application must be made in the instant application. This should appear as the first sentence of the specification following the title, preferably as a separate paragraph. The status of nonprovisional parent application(s) (whether patented or abandoned) should also be included. If a parent application has become a patent, the expression "now Patent No. \_\_\_\_\_" should follow the filing date of the parent application. If a parent application has become abandoned, the expression "now abandoned" should follow the filing date of the parent application.

If the application is a utility or plant application filed on or after November 29, 2000, any claim for priority must be made during the pendency of the application and within the later of four months from the actual filing date of the application or sixteen months from the filing date of the prior application. See 37 CFR 1.78(a)(2) and (a)(5). This time period is not extendable and a failure to submit the reference required by 35 U.S.C. 119(e) and/or 120, where applicable, within this time period is considered a waiver of any benefit of such prior application(s) under 35 U.S.C. 119(e), 120, 121 and 365(c). A priority claim filed after the required time period may be accepted if it is accompanied by a grantable petition to accept an unintentionally delayed claim for priority under 35 U.S.C. 119(e), 120, 121 and 365(c). The petition must be accompanied by (1) a surcharge under 37 CFR 1.17(t), and (2) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2) or (a)(5) and the date the claim was filed was unintentional. The Commissioner may require additional information

Art Unit: 1724

where there is a question whether the delay was unintentional. The petition should be directed to the Office of Petitions, Box DAC, Assistant Commissioner for Patents, Washington, DC 20231.

2. Applicant's claim for domestic priority under 35 U.S.C. 119(e) is acknowledged.
3. The abstract of the disclosure is objected to because it is longer than 150 words in length. Correction is required. See MPEP § 608.01(b).
4. Claims 1-18 are allowed over the prior art of record.
5. The following is an examiner's statement of reasons for allowance: None of the prior art of record teach nor suggest the claimed features of an apparatus for eliminating gas bubbles in a syringe including a syringe having a syringe outlet and a syringe operator, an actuator for moving the syringe operator; a tubing connected to the syringe outlet; and a sensor positioned adjacent the tubing for sensing when gas bubbles have been eliminated from the tubing as in instant claim 1. Claims 2-8 depend upon claim 1 and are allowed for at least the reasons that instant claim 1 is allowed. None of the prior art of record teach nor suggest the claimed features of an apparatus for conditioning organic fluid as in instant claim 9 including a cabinet having a secure environment for conditioning the fluid; an input system for transporting fluid from a source to the cabinet, a container removably contained in the secure environment and coupled to the input system to receive the fluid; stressors coupled to the container and positioned to create a conditioned fluid in the container, an output system coupled to the container and including a receiver for the conditioned fluid; and an apparatus sensing when gas bubbles are eliminated from the receiver including a sensor arranged for sensing when

Art Unit: 1724

gas bubbles have been eliminated from the receiver. Claims 10-18 depend upon claim 9 are allowed for at least the reasons that instant claim 9 is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Utterberg, Meyer, and Davis disclose similar apparatus.

7. This application is in condition for allowance except for the formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
